### **EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In the specification, page 1, paragraph (0001), after "2003," insert –now US Patent No. 6,899,441--.

Remarks: The amendment above updates the related case 10/633,420 to include the present US Patent number.

2. The following is an examiner's statement of reasons for allowance: Claims 1-18 are allowable because none of the prior art of record suggests a base having a bottom portion having a first electric socket and plural legs pivotally secured to said base, each said plural legs having plural illuminating elements thereon, a shell having a charging connector detachably plugged into said first electric socket electrically connected to said plural illuminating elements, said charging connector having a first electric contact, a second electric contact and a third electric contact, a charging circuit installed within said shell and being electrically connected to said plural rechargeable batteries and a first electrical point between said first electric contact and said second electric contact for recharging and a discharging circuit installed within said shell and being electrically
